STYLE BOOK
NUMBER 15

Globe Lighting Fixture Mfg. Co., Inc.

Seventh Avenue and Twelfth Street Brooklyn, N. Y.

ART AND DECORATION IN LIGHTING

Artistry and harmony are combined with expert light giving, in the lighting fixtures illustrated in this catalog, with most interesting treatments in up-to-date classical or modern designs that will lend that touch of decoration and lighting comfort to the interior that helps to make a house a home.

The Globe Lighting Control Fixture

is efficiently equipped to give both diffused and reflected light of highly superior illumination. In the center is a diffusing glass of flashed opal which diffuses the light from a 100 or 150 watt Mazda lamp. This fixture is equipped with a porcelain socket and controlled by a 4 way action switch at the side of the fixture. There are five outside lights encased in high quality cased glass of a straw-tinted texture employing 25 or 40 watt lamps to provide a rich mellow light entirely free from glare. The Lighting Control Fixture is finished in English Bronze and Chromium.

Study and Reading

Ideally suited to the visual tasks of study and reading the Globe Lighting Control Fixture permits the performance of these tasks without unnecessary strain to eyes or nervous system. With the use of the efficient center light spreading an even light downward over the working area making study possible under the most comfortable conditions.

General Illumination

For illuminating the entire room no fixture is more efficient than the Globe Lighting Control Fixture. With all lights open there is an assurance of complete yet comfortable illumination. It creates no dark areas nor excessively bright spots to put unnecessary strain upon the eyes.

Four Way Switch Control

1 turn - - - -	Table reflector only.
2 turns - - -	Outside lights, plus table reflector.
3 turns - - -	Outside lights only.
4 turns - - -	All lights out.

For companion pieces see pages 26 and 27

Dining

With the downward light beaming directly upon the table and the five outside lights illuminating the entire room, the family dines in perfectly lighted surroundings. Correct lighting is an important factor in the enjoyment of any meal.
